

Curriculum Summary

MFA in Digital Media Arts (Game Design Track)

Shanghai University of Engineering Science

2025-2026 Academic Year, First Semester

Course Overview

Course Name (Chinese)	English Translation	Duration	Relevance
基础韩语	Basic Korean	Week 2-17 (Full semester)	Unrelated to major
综合韩语 (中韩合作)	Comprehensive Korean (Sino-Korean Coop.)	Week 2-17 (Full semester)	Unrelated to major
新时代中国特色社会主义思想理论与实践	Political Theory: Socialism with Chinese Characteristics	Week 2-17 (Full semester)	Unrelated to major
游戏引擎设计	Game Engine Design (Prof. Zhang Yingfang)	Week 2-9	Game ✓
游戏场景设计 (中韩合作)	Game Scene Design (Prof. Myung Ho Sung)	Week 2-9	Game ✓
艺术概论	Introduction to Art	Week 2-9	Theory
设计方法论	Design Methodology	Week 10-17	Theory
设计形态与构成研究	Design Form & Composition	Week 10-17	Theory
研究生论文写作指导	Thesis Writing (Chinese only)	Week 10-17	Chinese only

Color Legend:

- Unrelated to major (Korean / Political courses)
- Game-related courses (only 2 out of 10)
- General theory courses
- Thesis writing (Chinese only, no English academic writing offered)

Key Issues Identified

- Korean Language Requirement: Two Korean courses span the entire semester, unrelated to my game design specialization.
- No English Academic Writing: Only Chinese thesis writing is offered, hindering my ability to publish in international venues.
- Limited Game-Related Courses: Only 2 out of 10 courses relate to game development (taught by Prof. Zhang and Prof. Myung, who wrote my recommendation letters).
- No AI/Agent-Related Courses: Despite rapid AI development in game design, the curriculum offers no AI or intelligent agent courses.
